

LASCON

INCORPORATED

Dear Homeowner,

My name is J.T. Seaman and I am the Director of Operations for Lascon Inc. I wanted to take this opportunity to introduce myself and provide you some information about the upcoming project that will be taking place on Franklin Street. Lascon Inc. was recently awarded the Franklin Street Curb Replacement Contract. My team and I will make our best efforts to make this project go as smooth as possible, with the least amount of inconvenience to you, your family, your pets, and your neighbors.

Weather permitting, we are currently estimating that this project will take 2-3 weeks. Lascon Inc. will be starting work on Wednesday July 26, 2017 and plans to have the project completed by August 18, 2017. Our team will be on site Monday-Friday between the hours of 7am and 4pm.

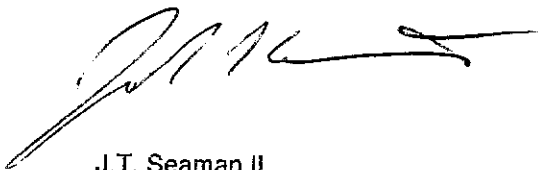

It is our intention to keep the roadway open at all times for your convenience. We do ask that you **PLEASE DRIVE SLOW AND CAUTIOUSLY** while in the work zone for the safety of our team and yourselves. This will also aid in preventing any possible damage to your vehicles and/or our personnel and equipment.

We will be starting the Curb replacement at the top of the hill on the right side of Franklin Street as you drive up from Route 9w. We will work our way down the street towards Route 9w in 250-300 foot sections. Once we reach 9w, we will switch to the opposite side of the road and work our way back up the hill on the left side of the road starting at 9w.

Driveway access will be limited while working at the end of your driveway. Parking and use of the driveway will be discussed homeowner by homeowner as we approach your driveway. Please understand that this is a construction project that has to go past your driveway and we will do all we can to accommodate.

I want to thank you in advance for your anticipated understanding and cooperation with this project. I look forward to working for you, and making your street safer.

Thank You,

J.T. Seaman II
Director of Operations - Lascon Inc.
